

## DEVELOPMENTS IN ELECTRONIC COMMUNICATIONS NETWORK AND SERVICES

### Telecom Market Fragmentation on Agenda of next Ministerial Meeting

The next meeting of EU telecom ministers on 5<sup>th</sup> December will debate how to address the “market fragmentation and financial sustainability of the European telecommunication sector”, according to a discussion paper seen by Euractiv. **Euractiv** ([read more](#))

### EU 5G and 6G Funding Initiative announces 2024 Work Programme

The programme will be the basis for the third call for proposals by the partnership. The call will officially open in January 2024, but the applicants can already start working on their proposal’s preparation. **European 5G Observatory** ([read more](#))

## Deutsche Telekom offers a Commercial 5G Network Slicing Service

Deutsche Telekom is working with Mavenir on two projects focused on making money with 5G network slicing technology. **Fierce Wireless** ([read more](#))

## DEVELOPMENTS IN THE DIGITAL SECTOR

### The Digital Services Act at its First Test

The re-explosion of the Middle East's conflict has brought a flood of illegal and harmful content across the web. We discussed how this crisis is, for the first time, testing the Digital Services Act, the EU's content moderation rulebook, with Rose Jackson, Director of the Democracy and Tech Initiative of the Atlantic Council's Digital Forensic Research Lab. **Euractiv** ([read more](#))

### Algorithm Audits in the Digital Services Act

The European Commission adopted the delegated act regulating the auditing of algorithms under the DSA last month. **Euractiv** ([read more](#))
