

REGULATION

Eir to implement changes in its regulatory governance structure

Source: Cullen International

Eir, the Irish incumbent operator, has reached an agreement with ComReg, the NRA, to establish a new regulatory governance model (RGM) to ensure its future compliance with wholesale non-discrimination and transparency obligations [[read more](#) – subscription required].

SPECTRUM

Ofcom to put more 5G spectrum up for auction in 2019

Source: Total Telecom

Ofcom has said that it plans to put more spectrum up for auction in the second half of 2019, as the UK looks to ramp up its preparations for 5G. Ofcom plans to put two distinct blocks of spectrum up for auction, in the 700MHz and 3.6-3.8GHz bands [[read more](#) – subscription required].

Finnish government renews 900 MHz, 1800 MHz and 2 GHz mobile licences

Source: Cullen International

Following a beauty contest, the Finnish government awarded nine mobile licences. The licences include all of the harmonised spectrum in 900 MHz, 1800 MHz and (paired) 2 GHz bands to the three established mobile network operators (MNOs) DNA, Elisa and Telia Finland [[read more](#) – subscription required].

POST

Royal Mail access pricing discrimination 2018

Source: Cullen International

Ofcom fined UK incumbent postal operator Royal Mail £50m (€56.03m) for having abused its dominant position in bulk mail delivery by discriminating against its wholesale customers that sought to compete with it in this market [[read more](#) – subscription required].

DHL Parcel increases domestic parcel rates

Source: Post & Parcel

DHL Parcel will increase the price for domestic parcels weighing up to 5 kg on January 1, 2019.

All other prices for parcels and small packages, including prices for online prefranked items, will remain unchanged [[read more](#)].
