

## REGULATION

### **Commission welcomes European Parliament's Vote on New Rules Facilitating Access to Online TV and Radio Content across Borders**

Source: European Commission

Following the European Parliament's approval of modernised copyright rules last week, on 28th March the Parliament endorsed another crucial piece of legislation to make the copyright rules fit for the digital age [\[read more\]](#).

### **European Parliament approves New Copyright Laws**

Source: Broadband TV News

Amid howls of protests from the likes of Google, Github and Wikipedia, the European Parliament has backed controversial new copyright laws [\[read more\]](#).

### **European Commission Recommends Common EU Approach to the Security of 5G Networks**

Source: European Commission

On 26th March, the European Commission has recommended a set of operational steps and measures to ensure a high level of cybersecurity of 5G networks across the EU [\[read more\]](#).

## INTERNET

### **Internet Value Chain in Europe: from Net Neutrality towards Device or Platform Neutrality**

Source: Cullen International

How the fundamental principles behind net neutrality are impacted by devices connected to the internet is a burgeoning area of regulatory attention. It prompts the question of whether existing rules adequately address devices and their related software (e.g. operating systems, apps) and, if not, how future initiatives can address them [\[read more – subscription required\]](#).

## TELEVISION

### **Vodafone Completes Analogue Switch-Off on German Cable**

Source: Broadband TV News

Vodafone Deutschland has removed the last analogue TV and radio channels from its cable network in Stendal in Saxony-Anhalt, thus completing analogue switch-off in all 13 served federal states [\[read more\]](#).
